Teltek C80

Checkweigher

The Teltek designed precision engineered Teltek designed C80 weigh platform guarantees weight stability, accuracy and repeatability. Available fabricated in stainless steel, IP66 with conveyors driven by virtually maintenance free brushless DC motors.

The C80 offers a range of belt sizes and reject devices to suit customer specific needs including Air Blast, Pusher, Single or Double Flipper/Divert Arm and Drop Flap.

The Teltek C80 is feature packed with wide ranging Networking, Feedback and Communications capabilities, (wired or wireless) giving management and operators total control over their checkweighing. A Metal Detector Integral Combination unit is also available. Up to four parallel weighing systems can be controlled by one display and software programme.

The Teltek weighing mechanism is easy to clean with quick release tool free belt release and incorporates an open designed stainless steel corrosion free load cell guaranteeing longevity and trouble free weighing.

Teltek C-platform

Teltek C-platform makes the base of the checkweighers in Teltek C-series. Hardware as well as software is developed by Teltek and give our checkweighers very high performance in weighing. Teltek C-platform can be combined with many different applications to be able to fit in a large amount of different environments. Combine Teltek C-platform with either the C20, C60 or C80 interface.

Specifications

Weight Capacity:	from 15-2500 gram or 15-5000 gram
Accuracy:	from 0,1 gram
Speed:	maximum 500ppm (depending on pack size)
Weigh Platform:	Teltek C
Display:	15" Touch screen
PLU/Programmable memory:	1000 (expandable to 5000)
Connectivity Options:	All Stainless Steel to IP66 or Stainless Steel & Aluminium
Power:	110/230VAC 50/60
Dimensions:	All Checkweighers built to customer specifications (belt sizes)
