

Wake Up Feeling Secure

ESPRIT[™]

4- to 24-Zone
Security Systems

Esprit offers you simplicity, control, reliability and the peace of mind you need to feel secure.

One-Touch Security

Esprit makes protecting your loved ones as easy as pressing a button. Arm or disarm your system with a single touch. Activate your door chime to notify you when someone enters or leaves an area. Provide access to one specific area while limiting access to the rest of your areas. With Esprit's one-touch functions, your security is simple.

Clarity

Understanding your system is easy with Esprit's user-friendly keypads. Large status lights inform you at a glance whether or not your system is armed and exclusive backlit keys tell you instantly in what area something is detected. No scrolling, no searching, just straightforward answers.

Two Systems in One

Now you can secure two separate areas with one single system. Keep your office armed while your garage is disarmed, or disarm your backyard shed while your home remains armed. With control of two distinct areas it's like having two systems in one.

24-Hour Emergency Access

Esprit's panic signal monitoring means you don't have to worry when you're alone. In an emergency, you can quickly send one of three signals to a central station for immediate assistance.

Voice Notification

With the optional ParaVox module you can get telephone notification of a fire, medical or police emergency or even a message that your kids have arrived home safely. Choose up to 4 different messages.

Choose from a Complete Line of Keypads
