### Platform stairlifts

Lehner Lifttechnik GmbH successfully developed and steadily improves two types of outstanding platform stairlifts whose special features and low prices make them highly competitive in the international market.

#### OMEGA

- ⇒ Straight and curved stairs
- ⇒ **Left and right curves, small curve radius and horizontal drive** possible
- ⇒ Robust construction makes it especially suitable for outdoor use
- ⇒ Space saving and appealing design

#### DELTA

- ⇒ One of the **slimmest** straight platform stairlifts on the market
- ⇒ The **cheapest and easiest solution** for many straight staircases
- ⇒ Silent and **smooth operation**
- ⇒ **Appealing design**
- ⇒ **Fast and easy to install**

### Vertical lifting devices

Both, our vertical lifting table “Liftboy”, as well as our poollift “Delphin” aim to improve the life of the physically impaired by combining low cost and high quality in one product.

#### LIFTBOY

- ⇒ Optimal solution for height **differences up to 83 cm**
- ⇒ Suitable for indoor and outdoor use
- ⇒ **Low weight** makes it easy to transport between locations
- ⇒ **No on-site modifications** are necessary

#### DELPHIN

- ⇒ **No attendant help** needed
- ⇒ No underwater installation necessary
- ⇒ Appealing **design in stainless steel**
- ⇒ Powered by 3,8 bar water pressure
- ⇒ **Easily installed** and uninstalled

### Stairclimbers

Lehner Lifttechnik offers 3 different types of stairclimbers. An outstanding product is the stairclimber “Stairmax” which represents the only stairclimber on the market where no assistance is required!

#### TK Standard

- ⇒ Fits most standard wheelchairs
- ⇒ Indoor and outdoor use
- ⇒ Easy to dismantle and transport

#### Stairmax

- ⇒ Only product worldwide where **NO attendant help is needed**
- ⇒ **Alternative to platform stairlift**
- ⇒ Easy to use and transport

#### TK Public

- ⇒ Fits for manual and electric wheelchairs
- ⇒ Simple handling, min. maintenance
- ⇒ Indoor and outdoor use
