

Systematic space-saving

New wave in the logistics area

The NESCO family of nesting containers was specially developed for the order-picking area. Thanks to minimal conicity, they offer a large capacity. Nestable containers can be stacked on the lids or fold-out bail arms. When the containers are empty, the lids or bail arms are folded out of the way and a number of containers can be nested inside one another with a resultant saving of up to 75% of the original volume.

NESCO 400x300 mm without bail arms and lids

Internal dimensions top: 364x264 mm
base: 313x231 mm

Order no.	Height	Nesting height	Volume	Weight
37-4320-110	200 mm	65 mm	14 litres	0.8 kg
37-4330-110	300 mm	80 mm	21 litres	1.2 kg

NESCO 400x300 mm with bail arms, without lids

Internal dimensions top: 364x264 mm

Have you got sights set on e-commerce?

Shipping containers such as the POOLBOX were developed in collaboration with the Swiss Post Office and have revolutionised the delivery of packages. During their development, great attention was given to economic and ecological aspects. Thanks to secure snap locks, no string or glue is needed.
