

Automate acid-base, redox and ion titrations for simple accuracy

Potentiometric titrator for accurate titrations with easily reportable results.

The Thermo Scientific™ Orion Star™ T940 All-in-one titrators are designed to increase your laboratory productivity by automating titrations. Our core electrochemistry technology is integrated with a state-of-the-art reagent dispensing system to create modern, simplified automated titrators designed to make performing titrations easier, more reliable and more reproducible than manual titrations.

Use the Orion Star T940 All-in-one titrator for flexible acid-base, redox or ion concentration titrations including:

- Titratable acidity of juices and wines
- Acidity of food products
- Alkalinity of waters
- Sulfite/SO₂ in juice and wine
- Ascorbic acid (vitamin C) in food products
- Chloride/salt in food products

Titration techniques include equivalence point titrations, preset pH or mV endpoint titrations plus MKA mode for automated known addition of various ions for versatile sample analysis. The automated titrant delivery system with high-accuracy burette and dispenser provides consistent results. Automatic results calculations simplifies analysis and reduces computational errors.

This compact titrator is designed to:

- Offer easy-to-use navigation from setup to live titration analysis to data transfer
- Showcase titrations, onscreen instructions and help menus on a large color graphic touchscreen display
- Create and save up to ten user-defined methods
- Save up to 100 titration data sets with date/time stamp
- Facilitate data transfer to printer, computer or USB drive

Durable Titrators with Rugged Design

Benefits of Orion Star T940 All-in-one Titrator:

- **Accurate, Reproducible Results:** Automating the titration workflow enables analysis to be run using the same setup parameters and calculations every time.
- **Fast Setup Time:** Setup and save electrode, titrant and titration parameters once using methods.
- **Prioritize Lab Throughput:** Start the titration, and let the instrument run unattended.
- **Minimal Cost and Downtime:** Easily replace titrator parts to minimize maintenance downtime while long lasting electrodes may reduce the cost of ownership.
- **Securely Document Test Results:** View results live, in the summary table and within the 100-point data log.
- **Applications Database:** Tested and validated preprogrammed methods can be easily loaded onto your titrator via USB flash drive.

Titrator connections have clearly labeled functions, including three USB ports for printer, USB flash drive, and computer software connections.

Minimize downtime with easy-to-install and easy-to-replace burettes, tubing, dispenser and additional high-wear components.

Electrode holder provides secure, smooth electrode movement throughout the measurement process.

Pair with premium ROSS pH, Orion redox or ion selective electrode technology to provide a complete measurement system optimized for accurate, reproducible sample analysis.

Bottle holder helps secure titrant to prevent spills and can be easily disconnected from the titrator for flexible placement on the lab bench.

Color-coded tubing and connectors simplify tubing installation and maintenance.

Stirrer probe provides consistent sample mixing, helps prevent damage to electrodes and is easy to rinse between samples.

Product Specifications

Orion Star T940 All-in-one Titrator

| | |
|---|---|
| Titration Technique | Equivalence point or preset endpoint |
| Equivalence Points | 1 or 2 |
| Preset Endpoints | 1, 2 or 3 |
| Multiple Known Addition Points | Up to 5 |
| Titration Types | Direct or back titration |
| Blank Options | Fixed value or variable value using titration |
| Cycles Per Titration Run | Up to 5 cycles with option to exclude cycles from average results and RSD calculations |
| Titrant Determination | Standardization titration or manual concentration input |
| Titration Process Control | Routine, quick, careful or user defined |
| Titration Precision | ±0.5 % RSD, dependent on environment and handling conditions |
| Stirrer Probe Speeds | 5 selectable speeds, 250 to 3700 RPM |
| Sample ID | Auto-incremental, manual or off |
| Titration Setup Wizard | Yes, using Start a New Titration workflow |
| Methods | Up to 10 customizable methods with optional password protection |
| Methods Transfer | Import/export via USB flash drive, summary to computer software or compact printer |
| Data Logs | Sample titration, titrant standardization, calibration, direct measure – 100 data sets each |
| Data Log Export | CSV or Report (PDF) file, short or long format |
| Time and Date | Yes, with nonvolatile battery backup |
| Direct Measure Mode | pH, redox or ion concentration with mV and temperature |
| pH Range / Resolution / Relative Accuracy | -2.000 to 20.000 pH / 0.001, 0.01, 0.1 (user selectable) / ±0.002 pH |
| ISE Range / Resolution / Relative Accuracy | 0.0001 to 19990 0.0001 minimum, 1 to 4 significant digits (user selectable) ±0.2 mV or ±0.05% of reading, whichever is greater |
| Calibration Mode | 1 to 5 point pH, 1 point relative mV, 1 to 5 point ISE |
| mV Range / Resolution / Relative Accuracy | -2000.0 to +2000.0 mV / 0.1 mV / ±0.2 mV |
| Temperature Range / Resolution / Relative Accuracy | -5.0 to 100.0 °C; 23.0 to 212 °F / 0.1 °C; 0.1 °F / ±0.2 °C |
| Temperature Input | Manual or automatic with optional 1 point ATC probe offset calibration |
| Display Type | 5.7" color capacitive touchscreen, 640 x 480 resolution, with lab glove compatibility |
| Display Backlight | Yes, adjustable |
| Languages | Chinese, English, French, German, Italian, Japanese, Korean, Portuguese, Spanish |
| Audible Notifications | Titration Cycle Complete, Maximum Titrant Volume, Data Log Full, Calibration Due, Maintenance Reminder |
| Updateable Firmware | Yes, using USB flash drive |
| Burette Sizes | 10 mL, 20 mL (included), 50 mL |
| Burette Resolution | Advanced micro-step technology provides 25,600 micro-steps per motor revolution for smooth and precise burette positioning (2 million micro-steps over full burette stroke range) |
| Burette Dosing Accuracy | Meets ISO8655-3 requirements |
| Burette Functions | Automatic rinse cycles for flushing and discrete dispense volume with continuous option |
| Certifications | CE, TUV 3-in-1, FCC, EN/IEC 61326-1, IEC 61010, IP-51 |
| Dimensions | 10" x 16" x 14" (L x W x H); 25.4 cm x 40.6 cm x 35.6 cm (L x W x H) |
| Weight | 12.5 lbs; 5.67 kg |
| Power Requirements | 100 to 240 V, 50/60 Hz |
| Warranty | 1 year |

Expand the functionality of your Orion Star T940 All-in-one titrator with key accessories designed to help increase your lab productivity. Easy to install replacement parts minimize maintenance downtime and ensure your Orion Star T940 All-in-one titrator is ready for sample analysis.

- Pair the Orion Star T940 All-in-one titrator with any premium ROSS pH, Orion redox or ion selective electrodes or for a bundled discount, select a preconfigured titrator and electrode kit.
- The 8102BNUWP ROSS Ultra pH electrode and 927007MD stainless steel ATC temperature probe are ideal for most standard pH titrations and preset endpoint titrations that include temperature.
- The 8172BNWP ROSS Sure-Flow electrode is designed for challenging samples that can clog standard pH electrodes or that require a fast-flowing sleeve-type junction.
