

# HIGH SPIN WASHING MACHINES

LM 30 - 40 - 55 - 70 - 85

 **IMESA**

# MAXI LM SERIES

## BIG CAPACITY

## MAXI RESULTS

The IMESA MAXI LM Series are the ideal solution for the laundry exigences of BIG hotels, hospitals, industrial laundry and all those structures which treat each day big quantity of linen.

Designed to satisfy the needs expressed by the user and realized with the best available technologies, this washing machines assure high quality results.

Thanks to the IM8 computer, the LM series has no comparison in matter of flexibility: programs creation is very intuitive and automatic detergent measuring is very easy.

Studied to last: a reliable structure and high quality components! We are proud of our product reliability in which we trust so much to grant the best warranty condition: **24 MONTHS TOTAL WARRANTY!**

### Great performance

Customer satisfied at 100%

**Preferred programs list:** IM8 allows to store up to 200 programs. Thanks to the preferred program list, the most used programs can be easily selected.

**Easy Prog:** the user can easily create its own washing programs, he needs only to answer to few simple question.

**Automatic detergent pumps:** on request the washing machine can be equipe with automatic detergent pumps which allows a precise detergent measuring.

**Reliability:** a solid structure and external panels in stainless steel AISI 304, this washing machine is a good and durable investment.

**GSM REMOTE SYSTEM:** a modern system wich allows to update the software, to modify programs, to download new programs, to make a machine check from remote. This systems enable to reduce the intervention time!

## SAFETY, ERGONOMICS AND SAVING

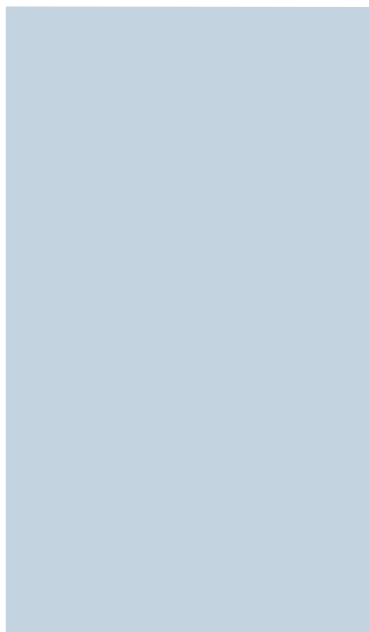

### HIGH QUALITY RESULTS

IMESA LM series washing machine use the best technologies to assure the best quality results.

Drum speed and temperature electronic controls, automatic and precise detergent measuring, allows to treat the linen with the maximum care.

### USER SAFETY

IMESA pays a high attention to the user safety, for this reason IMESA LM series is equipped with important devices to reduce possible risks: the emergency stop button shut off the machine, a safety mechanism avoid the door opening during the program running and a electronic control do not unlock the door if the temperature inside the drum is not below the set safety value.

### ERGONOMICS

Designed thinking to the user, the IMESA LM series has a big door diameter to make easier the linen loading and unloading diameter.

Door closing and opening ask for a small user intervention, as these operations are automatically controlled by the machine.

### SAVINGS

With the balanced water loading system, the washing machines loads cold alternate to hot water, so the water temperature is reached quickly in a very precise way, so the program length is shorter and it is requested less energy. Equipping the machine with automatic detergent pumps, the soap measuring is precise and possible waste are avoided.

The preferred programs list help to save time in selecting the wished program.

IMESA washing machines are designed in compliance with European Law in force.

IMESA washing machines are respecting the Russian import standards.

IMESA washing machines are respecting the Water Regulation Advisory Scheme, so they are suitable to UK Market.

## IM8: Simply touch

In line with the latest informatics technology, IM8 computer allows to interact with the machine by means of a touch screen. Touching the appropriate icon, the wished application is selected.

### AN ENDLESS LIST OF SOLUTION

IM8 allows to create, to modify, to name and to save up to 200 programs. The user, anyway, can create own program in a very simple and intuitive way and he can choose if the program must be saved or simply used and lost.

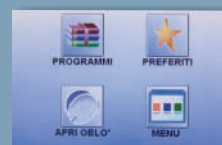

IM8 has an expandable memory: the program number, therefore, can be considerably increased.

### PREFERRED LIST

In order to avoid to scroll a very long program list, IM8 enables the user to composed a preferred programs list: 5 are chosen by the user, 5 are chosen automatically by the computer and are the most used.

Standard on all IMESA LM series washing machines the computer IM8 is equipped with a touch screen which allows to:

- Visualize the complete programs list
- Enter in the preferred programs list
- Open the door
- Enter in the technical area

### EASY PROG

This application allows the user to create his own program answering to few simple questions. The program can be named and saved to be used again later.

### EXPERT PROG

This application allows the technician to compile the program line by line, personalising each program parameters. Thanks to the expert program system also the most hard request can be satisfied.

### SAFETY PARAMETERS

Some safety parameters was provided to control that the main machine operations, like water load and unload and water heating, are made in a suitable time. In case of time over it is shown on the screen. Factory set time can be changed by the technician.

### EASY MAINTENANCE

The washing machine is equipped with a self diagnostic system which controls the correct machine working. IM8 computer enable the technician to dialog with inverter to proceed with possible necessary parameter changes directly from the touch screen.

If something prevents the correct program running, the screen inform about the anomaly. All the alarms shown are kept in memory to make easier the technician diagnose.

**IMESA:**  
WELABRIZZANNO  
IL TOY DAWROB

The **LM MAXI** series is equipped with side, top and frontal panel in stainless steel AISI 304.

Model	Capacity (1:10)	Heating
LM 30	30 Kg	Electric Direct or Indirect steam Hot Water Electric / Steam
LM 40	40 Kg	
LM 55	55 Kg	
LM 70	70 Kg	
LM 85	85 Kg	

## LM MAXI SERIES STRONG LIKE THE STEEL

### GSM REMOTE SYSTEM

A modern system which allows to update the software, to modify or to download programs, to make a machine check by remote. This system allows to reduce the intervention time!

### IM8 Computer with Touch screen

Easy interaction with the machine thanks to the use of icons.

### USB door on machine control panel

Easy data transfer from PC to washing machines and from one washing machine to the other.

### Easy maintenance

Access to the drain valve and to the mechanical parts is easier thanks to removable panels.

### Motorized door lock

Once the door is set ajar, the system locks it at the program start.

### Option:

- Automatic detergent pumps: on request the washing machine can be equipped with automatic detergent pumps which allows a precise detergent measuring.
- Third water inlet valve to manage hard water.
- Water recovery system: the water used in the last rinse can be used in the following cycle.

## GSM REMOTE ASSISTANCE: BECAUSE TIME IS MONEY

The acceptance of the GSM remote system brings big advantages:

- Shorter time of intervention means savings in laundry stop costs!
- Customized programs can be up- and downloaded by remote: the intervention time is quicker and the technician's trip is no more necessary.
- The software updating can be made by remote: the latest technology is always available.
- The manufacturer warranty starts from the installation moment.

## IMESA: A LIFE BY YOUR SIDE

**Imesa** is a leading company in the production of laundry equipment. We achieved this goal thanks to more than 40 years of total commitment to the continuing challenges to satisfy the growing technological expectation of human beings and meetings changes in lifestyle.

**Innovation, quality, safety, versatility, service and reliability:** IMESA success is based on this six concepts. Innovation in technology and proposal. Quality guaranteed by an UNI EN ISO 9001 certified production system. Safety of products certified by qualified operational organisation in various part of the world. Versatility and flexibility which allows many possibilities of customisation. Reliability thanks to the solid product structure.

**Customer satisfaction is IMESA main achievement.** Thanks to an international and professional net of distributor and to a well trained service net, IMESA can assure a global service in Italy, in Europe and in all the world.

**During the offer step,** IMESA distributor offers a complete support in the correct equipment choice and complete the job with a financial analysis of the investment as well as with the project.

IMESA can deliver in a very short time thanks to **equipment stock** in many countries: Italy, Spain, French, Portugal, Algeria, Hungary, ...

The wide **service** net can assure a quick **technical assistance** in case of necessity and the **spare parts can be easily purchased** in IMESA official website.
