

HM 2 series from Romaco Siebler

The four-side-sealed foil pack, widely known as a sachet or pouch, serves as a packaging medium for products which are flat in shape. Many products require special protection and the Siebler HM 2 series provides hermetic seals in combination with high production rates. Special products often require special solutions. Siebler can be your partner in developing customized feeding and handling units for your special packaging requirements.

Highlights

- High availability
- Quick production start
- Modular format toolings
- Top sealing quality (repeatable/pre-set)
- Perfect accessibility
